Dear Parents,

Introducing Morrisby – our Careers Platform

We are pleased to share that Ampleforth College uses Morrisby, a comprehensive careers and destinations platform that supports students aged 11–18 as they plan their next steps in education, training and careers. Morrisby combines questionnaires and psychometric assessments with an extensive library of careers and course information, helping students understand their strengths, interests and personality, and generating personalised career and subject suggestions.

A key part of our Careers Programme at Ampleforth is that every student meets with a qualified Career Advisor from CareerWave in Year 10 and Year 12. In addition, students in all year groups can arrange to meet with me at any time.

From Year 10 onwards, all students will complete a basic Morrisby profiling questionnaire, which, when combined with individual guidance meetings, provides a strong foundation for exploring future plans.

Students may also choose to complete the full Morrisby Profile, which offers deeper insight into strengths, motivations and personality; tailored subject and career suggestions; guidance on routes into those careers; and access to over 600 career descriptions, videos and case studies. All accounts include a 'login for life', allowing students to revisit and update their profile over time.

To complete the full Morrisby Profile, students would:

- Book a place through me, Stevaan Hall
- Complete the profiling (either 100 minutes in one sitting, or three shorter sittings)
- Meet with a Career Advisor to discuss their results

The cost of this package is **£80**. The full Profile is *entirely optional*; the basic profiling and guidance meetings already included in our programme are often sufficiently insightful.

If you would like to book a place, please contact me at Stevaan.Hall@ampleforth.org.uk.

Yours Sincerely,

Stevaan Hall
Head of Careers and Higher Education
